

Health Care/Nursing Major

Science & Technology Department

Evangel's Nursing Program is a cooperative effort with the Lester L. Cox College of Nursing and Health Sciences. Participants earn two Bachelor's degrees: a B.S. in Health Care from Evangel and a B.S.N. from Cox. This is an all-inclusive, fully-accredited, 4-year program. As EU students, they live on campus and participate in Evangel student life. They complete the General Education requirements and nursing prerequisite courses during the freshman year. As sophomores, juniors, and seniors, they take courses in nursing theory and clinical work at Cox, using the clinical facilities of the Cox Health Systems network. When they complete the program, students are eligible to take the NCLEX exam which qualifies them for licensure as Registered Nurses.
